JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

The St. Lucia quarantine board by to-day's mail furnish the following health reports, taken from last received bills of health :

Bahia, for the fourteen days prior to June 7, 3 cases, 3 deaths ; yellow fever ; 5 cases smallpox. Colon, June 6, sporadic cases of yellow fever occur from time to time. LaGuayra, June 11, clean bill of health. Port Limon, June 4, clean bill of health. Puerto Cabello, June 4, no new cases of smallpox since May 26. Pernambuco, June 13, clean bill of health. Para, June 15, 1 death from yellow fever during last fifteen days ; steamship *Lochiel* arrived at St. Lucia on 21st instant ; her captain died at Para from yellow fever, and her steward was left there ill with same disease ; 2 seamen ill on arrival with fever. Rio Janeiro, for fourteen days prior to June 4, 82 cases, 21 deaths, yellow fever. Santos, for fourteen days prior to May 24, 69 cases, 46 deaths, yellow fever. Victoria, June 3, clean bill of health.

Trinidad and St. Thomas quarantine Bahia, Cuba, Para, Rio Janeiro, Santos, and all Venezuelan ports. Grenada quarantines Rio Janeiro in addition to the places mentioned in my last letter.

I have the honor to be, sir, your obedient servant,

JAS. SANDERSON,  
*Clerk, Quarantine Board.*

*Smallpox in Vancouver.*

PORT TOWNSEND QUARANTINE,  
*Port Townsend, Wash., June 28, 1898.*

SIR : I have the honor to inclose a letter from the city clerk of Vancouver, British Columbia, relative to recent cases of smallpox in that city.

From another source I learn that all the cases occurred within a little over a month. It is said the first case was not recognized as such. He was to all appearances well on landing from Australia, and there was no sickness on the ship. He was taken sick a few days later and died. The undertaker and some women the first patient had visited were next attacked.

Respectfully, yours,

S. D. BROOKS,  
*Passed Assistant Surgeon, U. S. M. H. S.*

VANCOUVER, *June 25, 1898.*

DEAR SIR : In reply to your communication *re* smallpox in this city, I may state that there were in all 9 cases. The disease is believed to have been introduced by a man coming from Australia. The date of the discovery of the last case was June 14. They were all isolated at the pesthouse, which is away from all contact with the people. Stringent and prompt measures were taken at once. The disease has now been checked.

Yours, truly,

THOS. F. MCGUIGAM,  
*City Clerk.*

S. D. BROOKS, Esq., M. D., *Port Townsend, Wash.*

BRAZIL.

*Sanitary reports from Rio—Report of mortality during 1897.*

RIO DE JANEIRO, *June 6, 1898.*

SIR : I have the honor to transmit to you my official report for the week ended May 27. There were 381 deaths from all causes, an increase of 39 as compared with the foregoing week ; 18 deaths from *accessio pernicioso*, an increase of 2 ; 38 deaths from yellow fever, an increase
